**International  
Summer  
University II  
2017**

Visit and learn in the USA!

August 13 - 26, 2017  
Kenosha, Wisconsin

## Subject

Learn environmental engineering and computer science in an interdisciplinary, hands-on course with multiple faculty from Germany and USA.

### Computer Science

Enhance an existing mobile app with cloud functionality and data analysis capabilities as a services to environmental intuitions for monitoring of different lake regions. Topics include: cloud storage, data mining and statistical analysis.

### Environmental Science

Learn about algae blooms in lakes including biological modeling, circadian rhythms, and lake biology. This will include sampling, modeling, and presenting your work!

## Excursions and Field Trips

**Milwaukee:** Miller Park  
Local Brewery  
Harley Davidson

**Chicago:** Architecture  
Millennium Park

**Racine:** North Beach  
Frank Lloyd Wright

**Kenosha:** City Tour  
Lake Michigan

## Culture and Language

Visit Wisconsin and receive an insight into local culture a language immersion experience.

### Mid-West History and Culture

Learn about the unique cultural region and about the English language. Try a wide variety of foods and learn about the basics of traveling in the USA.
